

# AWS POC

**Test the cloud before you commit, with AWS-funded Proof of Concept**

The **AWS Proof of Concept (PoC)** Program offers a unique opportunity to test Amazon Web Services cloud solutions in a secure, fully supported environment – **with up to \$25,000 in AWS funding**.

It's a **"try before you buy"** approach that allows your organization to **verify the performance**, cost-efficiency, and scalability of AWS solutions **before full-scale adoption**.

## Why it matters

- Cloud migration or modernization decisions require both technical validation and business confidence.
- The AWS PoC Program lets you evaluate your workloads, assess ROI, and confirm compliance - before you make long-term commitments.

## Check out our AWS services.

## FUNDING DETAILS

### AWS CONTRIBUTION

Up to 10% of the expected Annual Recurring Revenue (ARR) for the tested workload

### MAXIMUM FUNDING

\$25,000 USD per project

### EXAMPLE

Expected annual spend of \$100,000 → \$10,000 PoC funding from AWS

## PROGRAM BENEFITS

- **No financial risk** – test before investing
- **AWS-funded environment** – reduce initial migration costs
- **Expert support** – certified AWS Solutions Architects and AWS Hero assist in design, deployment, and validation
- **Security & compliance assurance** – meet enterprise and regulatory standards
- **Faster time-to-decision** – complete proof within 4-6 weeks

## WHAT CAN BE TESTED?

**Migration of existing workloads or vmware environments to AWS**

**AI/ML and data-driven projects**

**Application modernization and new architecture design**

**Infrastructure cost optimization and scalability validation**

**Security and compliance testing**

## POC PROCESS

- Define your business objectives and success metrics
- Select AWS services and workloads to test
- Design scope and architecture
- Build and test environment
- Validate results and ROI
- Extend to production

## NEXT STEPS

Let's identify your PoC use case together – from cost optimization to AI workloads. We'll help you apply for AWS funding and deliver a complete PoC in under six weeks.
